The ComNet™ FDX60 series data transceivers provide point-to-point transmission of simplex or duplex EIA RS232/RS422/RS485 (2W/4W) data signals over one or two optical fibers. The transceivers are transparent to data encoding allowing for broad-range compatibility. Models within this series are available for use with multimode or single mode optical fiber. Plug-and-play design ensures ease of installation requiring no electrical or optical adjustments. Each transceiver incorporates a bi-color (Red/Green) indicating LED for monitoring proper system operation. The FDX60 has a built-in fiber link test feature that allows for the testing of the fiber.

FEATURES

- Meets EIA RS232C/D and RS422/RS485 (2 or 4-wire) specifications
- > Tested and certified by an independent laboratory for full compliance with the environmental requirements (ambient operating temperature, mechanical shock, vibration, humidity with condensation, high-line/low-line voltage conditions and transient voltage protection) of NEMA TS-1/TS-2 and the Caltrans Specification for Traffic Signal Control Equipment.
- Robust design assures extremely high reliability in unconditioned out-of-plant/roadside environments
- > NTCIP compatible
- > Fiberlink Fiber Link Tester
- > Voltage transient protection on all power and signal input/ output lines provides protection from power surges and other voltage transient events.
- > Wide optical dynamic range: optical attenuators are never required
- > Indicating LEDs display equipment operating status

- > Hot-swappable rack modules
- Interchangeable between stand-alone or rack mount use -ComFit
- Standard size FDX60 may be DIN-rail mounted by the addition of ComNet model DINBKT1 or DINBKT4 adaptor plate.
- > FDX60-M has a small footprint and is designed for surface mounting
- > Lifetime Warranty

APPLICATIONS

- > Access Control Systems
- > Building Automation and Environmental Control Systems
- > Computer/Data Equipment
- > Fire and Alarm Systems
- > Traffic Signal Control Equipment

Accessories Options	DC Plug-in Power Supply, 90-264 VAC, 50/60 Hz (Included) [1] Add '/C' for Conformally Coated Circuit Boards to extend to condensation conditions (Extra charge, consult factory) DIN-Rail Mounting Adaptor Plate Kit – With mounting hardware (Optional, order model DINBKT1 or DINBKT4)					

NOTE: This product requires a fiber installation with a minimum 30 dB connector return loss. The use of Super Polish Connectors is recommended. Complies with FDA Performance Standard for Laser Products, Title 21, Code of Federal Regulations, Subchapter J In a continuing effort to improve and advance technology, product specifications are subject to change without notice.

TYPICAL APPLICATION

NOTE: Unit can be used for transmission of RS232 or RS422, but not simultaneously.
