MP-401
CPU Card

UL LISTED   S24679

Description

MP-401 CPU card is the processor board of GST-IFP4M control panel, builds the main board with MP-400 mounting board. It controls and monitors states of NAC, relay, auxiliary power and processes 485 and CAN communication information.

1 piece of MP-401 (together with MP-400) is configured as default. Additional MP-401 can build redundancy CPU feature.

Technical Specification

- 1 RS485 port
- 1 RS422 port
- 2 CAN ports
- Baud Rate: 10Kbps
- Operation Voltage: 5VDC
- Consumption: 100mA
- Environment Temperature: 0°C - 49°C
- RH Range: ≤93%, non condensing

Order Information

Part No.	MP-401
Device Name	CPU Card
Order Code	3612858

Installation and Connection
