P-9965
CAN Class B Network Card

CE

Description

P-9960 network card provides CAN network connection to GST-IFP8 panel. All panels are connected in same line. With CAN Hub, the network can be connected in star topology.

Technical Specification

- Compatible Panel: GST-IFP8 panel
- Communication Protocol: CAN
- Band rate: 10,000bps
- Node Capacity: 112 panels
- Cable Requirement: Minimum 1.0 mm^2 Fire Cable
- Communication Distance: 3000 meters
- Loop Connection: Class B
- WEEE & RoHS compliant

Order Information

Part No.	P-9965
Device Name	CAN Class B Network Card
Order Code	3661850

Typical Connection
