

# LC200 Loop Card

## Description

System expansion card for GST200 series panels, adds one additional loop.

## Technical Specification

- Compatible Panel: GST200-2 panel  
GST200N panel  
GST-M200 panel
- Operation voltage: 24VDC
- Operation current: 300mA
- Capacity: 242 addresses
- Loop Connection: Class A
- Cable Requirement: Minimum 1.0mm<sup>2</sup> Fire Cable
- WEEE & RoHS compliant

## Order Information

Part No.	LC200
Device Name	Loop Card
Order Code	3631370

## Typical Connection
