

PMCL600K Series 4K Ultra High Definition LED Monitors

WALL MOUNT 43-INCH, 49-INCH, 55-INCH, AND 65-INCH MONITORS

Product Features

- Thin Bezels Insure Uninterrupted Viewing Across Multiple Monitors on a Monitor Wall
- Ultra High Definition 3840 x 2160 Resolution
- Displays HDMI, DisplayPort, and VGA Signals
- OSD Menu Selection of 16:9 Widescreen or 4:3 SD Aspect Ratio
- Bright LED Illuminated Panel with Ultra Wide (178°) Viewing Angle
- Built-in Stereo Speakers and Audio Amplifier
- Standard 400 x 400 mm VESA Mounting
- DisplayPort Cable, Power Cable, Remote Control, and Wall Mount Bracket Included
- Auto Input Switch
- On-Screen Display (OSD) Languages: English, Spanish, German, French, Italian, and Chinese (Simplified)
- Picture-in-Picture (PIP) and Picture-by-Picture (PBP)

PMCL643K, PMCL649K, PMCL655K, AND PMCL665K

Pelco's **PMCL600K Series 4K Ultra High Definition** monitors combine the latest technologies into a perfect complement to your investment in megapixel imaging and performance. Wall mount Ultra High Definition monitors deliver 3840 x 2160 resolution and are specifically engineered to exceed the demands of surveillance operators.

Ultra High Definition displays adapt to the changing nature of security in control room design and efficiency. Pelco Ultra High Definition monitors are an integral component of the modern control room, allowing you to customize and deliver the most efficient video configuration for your installation.

Individual monitors, as well as entire walls, can be configured to meet your security needs. Also, multiple video streams can be arranged on a single monitor to significantly reduce your installation's power requirements. Pelco's energy-conscious Ultra High Definition displays use low-power components to meet regulatory compliance.

- Designed for 24/7 Operation and Backed by a 3-Year Warranty

Ultra High Definition monitors deliver optimal performance and the truest color reproduction available while retaining compatibility with Pelco and third-party megapixel cameras. The result is superior clarity and image recognition. When used with other, lower resolution camera systems, Pelco Ultra High Definition displays can seamlessly scale down to 720p. This feature guarantees crisp, detailed images from all cameras.

Ultra High Definition monitors have been designed to meet the global demands of complex security installations. Stringent testing of Ultra High Definition monitor components ensures that around-the-clock, day-in and day-out operation does not degrade the image quality, but consistently maintains the superior performance that surveillance operators require.
